We are 'home'.....

and we are in ISO after testing positive to Covid!

It's good to be back...

I think..... we have been 'home' a week today, although we are not so sure what it is like to be back as we only had three days before we tested positive for Covid19. Flora has tested negative, but both my parents and myself all tested positive so we have stayed home since Thursday. Thankfully I do not feel sick as such, just a lingering cough. We managed to get some beach days in before ISO, last Sunday was huge swells so we went out and braved the cold weather. On Tuesday we went to a park with friends and saved some chippies to feed the seagulls, and the rest of the week we've stayed inside playing games - some over and over again!

We are so thankful...

We are so thankful to finally be in Australia with every i dotted and t crossed - such a miracle in itself. Flora is the first child from Rwanda, under the Hague Convention to be adopted in NSW and we appreciate that didn't happen without our family and friends like you who never gave up praying for such a miracle.

We are ever grateful for all your support we have received over the 7years we lived in Rwanda and even the years before I eventually arrived.

We will never forget our Rwandan friends we call family as we start our next season in Sydney, we are thankful they are imprinted in our memories and our hearts. We would like to give thanks to you all personally and so invite you to our Celebration Service - please see the flyer below and note the location.

We plan to continue to communicate with you as we re enter our lives in the western world and to keep you updated you on Flora's citizenship application.

We so look forward to coming out of ISO and starting to meet some of you in person for the first time, some for the first time in Australia and some to reconnect with from where we left off.

Many blessings, Michele and Flora.

Save the date To Acknowledge God's Faithfulness to us, we would together on my time serving in Rwanda as well as Permanent Residency Visa for lunch afterwards.
